

# MANUFACTURING EXPERTISE

Russell Standard is a premier provider of paving materials for the road construction industry. With a highly trained and dedicated team, we meet our customers' ever changing needs and enable them to build a better infrastructure in their communities. We offer a full range of asphalt emulsions, hot and cold asphalt mixes, and asphalt protective coatings to state and local governments and contractors. For over eighty years, Russell Standard has built a strong reputation for providing unique and innovative products, along with the quality control, customer service, and technical support to ensure successful project completion.

## Our production capabilities include:

- Asphalt-Based Industrial Protective Coatings
- Slurry Seal and Microsurfacing Emulsions
- Driveway and Parking Lot Sealers
- Anionic and Cationic Asphalt Emulsions, including Non-Tracking Tack Coats and Prime Coats
- Cold Mix, Warm Mix, and Hot Mix Paving Materials
- Third-party, contract manufacturing services
